Environmental Cleaning
Environmental Marking Audit

Public Health Ontario | Santé publique Ontario

This tool can be used to assist with environmental marking. A predetermined number of surfaces are marked prior to cleaning and the room is then assessed after a worker has cleaned the area.

For more information, please see At A Glance: Implementing Environmental Marking Audits for Environmental Cleaning in Five Steps

Date (yyyy-mm-dd):   Time (HH:MM):   Unit: Room:

Room cleaned by: First name: Last name:

1 - Room Surfaces
