

Dummy Resource

Any resource can be featured/inserted on a page and may include: documents, presentations, videos, blog posts, webpages, etc.

Once uploaded into the appropriate folder (i.e., Media Library, Videos, etc.), be sure to check that the following fields are filled in:

- Navigation title
- Navigation card description
- Check to see if the right file is in the Media section
- Taxonomy (topic and product)
- Image (under resource) – recommended size is 500x500
 - Image should be the same as the image associated with the resource (e.g., covering page), if no image, use Getty to find something suitable. Check with the program area for validation.
 - Don't forget alt text!

If a French version exists, created the French version and check that the fields noted above are filled in.
